THE CAMPAIGN FOR
DOUGY CENTER WEST

We know grief. Dougy Center provides support in a safe place where children, teens, young adults, and families who are grieving can share their experiences before and after a death. We also provide support and training locally, nationally, and internationally to individuals and organizations seeking to assist children who are grieving.

Childhood bereavement is a critical public health issue and an increasingly important national priority. The death of a parent, sibling, or other important person in a child's life is one of the most frequently reported disruptive childhood experiences and without support, can lead to adverse health and welfare outcomes.

Our top priority is to reach more children who are grieving who desperately need our services.
